## Organisational profile

Madhi Foundation was established in 2016 as a non-profit organisation working in the education sector, committed to the cause of bridging the equity gap in education for children across India. The Foundation draws its inspiration from the Tamil adage, “vidhiyay madhiyaal vellalaam”, which translates to, “*you can conquer destiny with intellect (madhi)*”.

We truly believe that an equitable and purposeful education can be a great leveler and open many a door for all children – regardless of their background; we believe that an excellent education ought to equip children with the ability to **think** deeply and rationally, to ask **questions** and remain curious about the world around them, and emerge as **creators** and innovators of ideas, solutions and life paths of their choice.

### Vision

*“To make excellent education a reality for every child.”*

### Mission

We evolve context-specific and scalable ideas to address the crisis of learning achievement gaps among children, and synergise with critical stakeholders in the public and affordable private education ecosystem to catalyse enduring impact.
